

## Production shedule

The Plums production in Naturitalia's system are in the most vocated Regions of North Italy.

## Product

Plums has a wild diffusion in Europe due to the high resistance to the seasonal frost.

Plum trees are usually planted on clay-calcareous soils with no drain problems.

The Plum's color goes from yellow to red-purplish and from red-purplish to blue-purplish skin; the flesh is yellowish, tight with a good level between sweet and acid favor.
